

Multi-state & Private Sector Investment Opportunities Deal Book

**Selected investment deals and emerging opportunities
presented through the Lagos Investment Roundtable**

Ministry of Commerce, Cooperatives, Trade & Investment
Lagos State Government
2026 Edition

Important Notice

- This Deal Book has been prepared for investor engagement purposes. It presents selected investment deals and emerging opportunities across State Government and private sector sponsors.
- The information in this document is intended to support initial investor review and engagement. Project values, financing requirements, structures, timelines, returns and investor roles are indicative and may evolve as projects progress through due diligence, commercial structuring, approvals and transaction documentation.
- Investors and their advisers should undertake their own legal, financial, technical, tax, commercial and regulatory due diligence before making any investment decision.
- Inclusion in this Deal Book does not constitute an offer, solicitation, investment recommendation or commitment by any project sponsor, public institution or adviser.
- This document is confidential and intended solely for investor engagement. It should not be reproduced, distributed or disclosed without prior consent.
- Currency conversions and USD equivalents are indicative and are based on sponsor-provided materials and/or the exchange-rate assumptions used in the relevant project materials. Investors should apply current market rates and their own FX assumptions during transaction analysis.

Introductory Note

Nigeria's investment landscape continues to offer opportunities across infrastructure, energy, logistics, industrial development, tourism, healthcare, digital infrastructure, manufacturing and growth-stage private enterprise.

This Deal Book presents selected investment deals and emerging opportunities being introduced for investor engagement through Lagos Invest 3.0. The opportunities cover State Government-led projects, public-private partnerships, private sector platforms and growth capital opportunities across multiple sectors.

The document is designed to help investors quickly understand where capital may be deployed, the nature of each opportunity, the indicative investment requirement where available, the expected commercial model and the next route for engagement.

The opportunities are presented in two broad groups. Featured Deals are projects ready for initial investor discussions. Emerging Opportunities are projects and investment platforms that are still being developed but may become suitable for more detailed engagement as preparation advances.

The purpose of this Deal Book is practical: to connect credible capital with credible opportunities, support early investor screening and create a basis for follow-up discussions with the relevant sponsors.

How to Read This Deal Book

The Deal Book is organised into two sections.

Featured Deals are opportunities with sufficient project information to support initial investor engagement. These profiles include the project description, sponsor or promoter, sector, location, investment requirement where available, indicative structure, revenue model, investor role and engagement route.

Emerging Opportunities are projects, platforms or investment themes that are still being developed. These opportunities are included because they may be relevant to investors and could progress into more detailed transactions as project preparation, sponsor engagement and commercial structuring advance.

Each profile should be treated as a starting point for investor discussion. Further project information and due diligence materials will be provided through the appropriate sponsor engagement process.

Executive Summary

This Deal Book presents a multi-sector portfolio of selected investment deals and emerging opportunities across Nigeria. The portfolio covers infrastructure, ports and logistics, rail freight, renewable energy, agro-industrial infrastructure, solid minerals processing, tourism and hospitality, healthcare, manufacturing, oil and gas, digital infrastructure, circular economy and growth-stage private enterprise.

The portfolio currently includes 11 Featured Deals and 62 Emerging Opportunities, totalling 73 investment opportunities across State Government-led projects, private sector-led projects, Federal / State-linked infrastructure opportunities and private sector growth capital opportunities.

Based on indicated project values, the portfolio represents more than USD 7 billion of potential investment opportunities across projects where values are currently available. These values are indicative and will be refined through project structuring, due diligence and investor engagement.

The portfolio has been expanded to include selected opportunities from Kano State and Enugu State. The Kano State portfolio is presented by the Kano Investment Promotion Agency (KanInvest) and comprises three PPP infrastructure projects across circular economy and waste management, urban mobility and agro-processing and export. The updated portfolio also includes additional State Government-led opportunities from Enugu State across agriculture and agro-processing, hospitality and tourism, healthcare, transport and logistics, energy and minerals, and digital infrastructure.

The wider portfolio includes hospitality and tourism projects, a private sector rail freight corridor, manufacturing and healthcare growth capital opportunities, and selected infrastructure opportunities across oil and gas, ports, maritime logistics, waste-to-energy and industrial development.

Investor engagement should proceed through the contact route listed in each project profile. Further project information and due diligence materials will be provided by the relevant sponsor through the applicable engagement process.

Portfolio Overview: Featured Deals and Emerging Opportunities

The table below summarises all opportunities in this Deal Book, their presentation status and indicative investment value where available.

Project / Opportunity	Sponsor / Lead	Sector	Location	Indicative Value	Status
FEATURED DEALS					
Baro Port City – Logistics & Port Infrastructure	Niger State Govt	Ports & Logistics	Niger State	USD 180m	Featured Deal
Minna Solar IPP – 2x50 MW Grid-Connected Solar Plant	Niger State Govt	Renewable Energy	Niger State	USD 110m	Featured Deal
Minna SAPZ – Phase 1 Core Infrastructure	Niger State Govt	Agribusiness	Niger State	USD 45m	Featured Deal

Madewell — Cement Plant (Cross River)	Private Sector	Manufacturing	Cross River	USD 650m	Emerging Opportunity

Section 1: Featured Deals

1

1.1 State Government-led Featured Deals

This section presents the Featured Deals. Each project is profiled in a standard deal card format covering the project overview, sponsor, investment requirement, structure, revenue model, investor role and engagement route.

Niger State Government — Ministry of Industry, Trade & Investment

The five Niger State Featured Deals have an indicated total capex of USD 785 million. Including the Solar Mini-Grids Emerging Opportunity, the broader Niger State portfolio totals USD 793 million based on the Niger State portfolio information. Primary contact: hc.investment@nigerstate.gov.ng | +234 809 300 0064. NS-SAPZ contact: y.akupbor@nssapz.com | +234 802 345 6789. Project information is expected to be made available to investors through the sponsor engagement process following submission of an expression of interest.

Baro Port City – Logistics & Port Infrastructure PPP

Sector	Ports & Logistics / Inland Waterway Transport
Location	Baro, Niger State (on the River Niger)
Project Partner(s)	Niger State Government; AD Ports Group (UAE), investment interest expressed in the project profile; DFI / ECA debt syndicate (to be mandated); civil works contractor (to be procured).
Project Owner / Promoter	Niger State Government, Ministry of Industry, Trade & Investment.
Borrower	Niger State Government / Port Concession SPV (to be determined through transaction structuring).
Project Description	Revival and modernisation of the historic Baro River Port, Nigeria's first inland river port, into a modern inland logistics hub. The project scope covers 50 km of river channel dredging, two new cargo berths, cargo handling equipment, an adjacent port-industrial zone, and a rail link to the national network. A full feasibility study has been completed. The project is structured as a 30-year DBFOT concession. The project profile notes that AD Ports Group has expressed investment interest.
Project Value	USD 180 million.
Financing Need	Equity: USD 50 million (anchor investor). Debt: USD 130 million from DFIs / Export Credit Agencies.
Type of Investment	Hybrid: Equity (28%) and DFI / ECA Debt (72%).

Project Status	Brownfield project with existing port infrastructure on site and a completed feasibility study.
Revenue Model	Port charges, berth fees, cargo handling tariffs, port-industrial zone lease income and logistics service fees.
Investor Role	Port operator / concessionaire; anchor equity investor (USD 50 million); civil works contractor; DFI / ECA debt provider.
Contact / Engagement Route	Alhaji Aminu Suleman Takuma, Honourable Commissioner of Industry, Trade & Investment, Niger State. Email: hc.investment@nigerstate.gov.ng Tel: +234 809 300 0064

Minna Solar IPP – 2×50 MW Grid-Connected Solar Plant

Sector	Renewable Energy / Power Generation
Location	Minna, Niger State
Project Owner / Promoter	Niger State Government / NS-SAPZ Company Ltd (public-private implementing vehicle).
Project Description	A 100 MW (2×50 MW) grid-connected solar photovoltaic power plant to supply clean electricity to the national grid and to industrial clusters in Minna. The project includes battery energy storage systems (BESS) for grid stability and is proposed under a Build-Own-Operate (BOO) model with a 20-year Power Purchase Agreement (PPA).
Project Value	USD 110 million.
Financing Need	Equity: USD 33 million (30%). Debt: USD 77 million (70%) from DFIs / commercial banks.
Type of Investment	Hybrid: Equity (30%) and DFI / Commercial Bank Debt (70%).
Revenue Model	Power purchase agreement tariffs over a 20-year term, from supply to the national grid and Minna industrial clusters.
Investor Role	EPC contractor; equity investor (30%, USD 33 million); debt financier (DFI or commercial bank, 70%, USD 77 million).
Contact / Engagement Route	Mr. Yomi Akupbor, NS-SAPZ Company Ltd. Email: y.akupbor@nssapz.com Tel: +234 802 345 6789

Minna SAPZ – Phase 1 Core Infrastructure Development

Sector	Agribusiness / Agro-Industrial Infrastructure
Location	Minna–Bosso Corridor, Niger State
Project Owner / Promoter	Niger State Government / NS-SAPZ Company Ltd.
Project Description	Development of core enabling infrastructure, covering roads, water supply, power distribution, drainage, and ICT connectivity, across a 1,000-hectare Agro-Industrial Zone in the Minna–Bosso corridor. The project profile indicates that anchor investors have been secured in livestock, dairy and grain sub-sectors. The project is structured as a Land-Swap PPP under a 30-year concession, where the developer receives land value in exchange for infrastructure delivery, with no cash upfront payment from the State.
Project Value	USD 45 million.
Financing Need	USD 30–40 million (equity and / or mezzanine debt).
Revenue Model	Plot lease and sale revenues; infrastructure service fees from zone tenants; land value appreciation under the 30-year concession.
Investor Role	Infrastructure developer / asset manager. Equity / mezzanine debt: USD 30–40 million.
Contact / Engagement Route	Mr. Yomi Akupbor, NS-SAPZ Company Ltd. Email: y.akupbor@nssapz.com Tel: +234 802 345 6789

Greater Suleja Development – Core Infrastructure

Sector	Urban Development / Real Estate / Logistics Infrastructure
Location	Suleja–Abuja Corridor, Niger State (12 km from Abuja FCT)
Project Owner / Promoter	Niger State Government, Ministry of Industry, Trade & Investment.
Project Description	A 2,000-hectare mixed-use urban development in Suleja, approximately 12 km from Abuja FCT. The development covers a dry port and container city, auto and building materials markets, a logistics cluster, and low-density residential neighbourhoods. The master plan has been approved. Niger State is seeking a master developer under a Land-Swap PPP (60/40 split): the developer receives 40% of developed land value in exchange for funding and delivering the infrastructure.
Project Value	USD 250 million (Phase 1, 5-year capex).
Financing Need	Anchor developer equity: USD 50–80 million. Balance from project debt and land proceeds.
Revenue Model	Land sales and plot proceeds; lease income from commercial and logistics zones; dry port charges; residential plot revenues.

Investor Role	Master developer / planner; infrastructure builder; plot marketing partner. Anchor developer equity: USD 50–80 million.
Contact / Engagement Route	Alhaji Aminu Suleiman Takuma, Honourable Commissioner of Industry, Trade & Investment, Niger State. Email: hc.investment@nigerstate.gov.ng Tel: +234 809 300 0064

Lithium / Silicon Value Addition – Industrial Processing Plant

Sector	Solid Minerals / Critical Minerals Processing / Manufacturing
Location	Diko Industrial Area, Greater Suleja, Niger State
Project Owner / Promoter	Niger State Government, Ministry of Industry, Trade & Investment.
Project Description	An integrated critical minerals processing facility with two components: (1) lithium hydroxide conversion at 20,000 tonnes per annum (tpa), processing high-grade lithium ore for the battery manufacturing industry; and (2) silicon metal refining at 30,000 tpa, processing high-grade silica for the solar panel and semiconductor industries. Niger State retains a 10–15% equity stake.
Project Value	USD 200 million (combined lithium and silicon facilities).
Financing Need	Equity: USD 60–80 million (strategic investor). Debt: USD 120–140 million from DFIs / mining finance funds.
Revenue Model	Processing and refining margins on lithium hydroxide for domestic and export markets; silicon metal sales to battery and solar panel manufacturers.
Investor Role	Strategic equity investor (USD 60–80 million); technology provider for lithium processing and silicon refining; offtake partner from battery or solar supply chain.
Contact / Engagement Route	Alhaji Aminu Suleiman Takuma, Honourable Commissioner of Industry, Trade & Investment, Niger State. Email: hc.investment@nigerstate.gov.ng Tel: +234 809 300 0064

Imo State Government — Investment Promotion via ISIPA

These three projects are presented as Featured Deals based on the project values and opportunity descriptions in the Imo State Investment Handbook. Further details on transaction structure, investor role, land status, financing requirement and supporting documentation will be developed through the ISIPA engagement process. Primary contact: invest@imostate.gov.ng | +234 911 009 9900.

Concorde Hotel – Hilton Partnership

Sector	Hospitality & Tourism — 5-Star Hotel Conversion
Location	Owerri, Imo State
Project Partner(s)	Imo State Government (state asset owner); Hilton Hotels & Resorts (management and brand partnership).
Project Owner / Promoter	Imo State Government with Hilton Worldwide.
Project Description	Conversion and full renovation of the state-owned Concorde Hotel into a 5-star Hilton-managed property with more than 200 keys. The project includes an international conference centre, premium dining, executive lounges, spa and wellness facilities, and a business centre. It is complemented by the Emmanuel Iwuanyanwu International Conference Centre. The project is targeting a 2026 opening, subject to sponsor confirmation.
Project Value	USD 45–60 million (renovation and repositioning).
Financing Need	Financing requirement to be refined during transaction structuring.
Project Status	Brownfield project. Renovation underway. Hilton Worldwide partnership signed.
Revenue Model	Hotel room revenues, food and beverage, conference facility hire, spa and leisure income.
Investor Role	Equity investor / co-developer for renovation financing. Investor role to be agreed during structuring.
Contact / Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Oguta Lake Eco-Tourism Development

Sector	Tourism & Hospitality — Eco-Tourism
Location	Oguta Lake, Imo State (one of Southeast Nigeria's notable natural lake assets)
Project Owner / Promoter	Imo State Government, Ministry of Tourism.
Project Description	Eco-tourism development around Oguta Lake covering 3–4 waterfront resort hotels, a water-sports and recreation centre, eco-lodges and glamping, marina and boat-cruise operations, fishing tourism and aquaculture, and an Igbo-heritage cultural village. The development is anchored by the natural Orashi/Oguta confluence. Imo State Government is offering this as a PPP opportunity.

Project Value	USD 80–120 million (comprehensive development).
Financing Need	Equity and / or PPP financing sought. Quantum to be agreed during structuring.
Revenue Model	Accommodation at resort hotels, eco-lodges and glamping sites; marina fees; boat cruises; water sports; food and beverage; events and cultural activities; aquaculture income.
Investor Role	Hospitality developer / operator; equity investor under PPP. Role to be agreed during structuring.
Contact / Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Nworie Riverfront Development

Sector	Tourism & Hospitality / Real Estate — Urban Waterfront PPP
Location	Nworie River, Owerri urban core, Imo State
Project Owner / Promoter	Imo State Government.
Project Description	Urban waterfront development along the Nworie River through Owerri's city centre, covering a waterfront promenade and parks, riverside restaurants and cafes, river-cruise tourism, outdoor event venues, and a night-entertainment district. Imo State Government is offering this as a PPP opportunity.
Project Value	USD 25–40 million.
Financing Need	Equity and / or PPP financing sought. Quantum to be agreed during structuring.
Revenue Model	Urban tourism revenues; food and beverage and hospitality income; event venue hire; river-cruise and entertainment income.
Investor Role	Private developer / hospitality operator under PPP. Role to be agreed during structuring.
Contact / Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Kano State Government —Kano Investment promotion agency (Kaninvest)

Three flagship PPP infrastructure projects are presented by KanInvest, the statutory one-stop shop for PPPs in Kano State. Financial projections are stated to be based on feasibility modelling prepared in accordance with ICRC guidelines. The projects are progressing toward Outline Business Case stage and formal bid processes. All figures remain subject to revision upon completion of full OBC documentation. Investor inquiries should be directed through KanInvest or the Lagos Invest 3.0 organising interface, pending confirmation of approved investor-facing contact details.

Jari Bola Waste-to-Wealth Facility	
Sector	Circular Economy / Energy — Integrated Waste-to-Resource Facility
Location	Kano State
Sponsor / Lead Interface	Kano Investment Promotion Agency (KanInvest) on behalf of Kano State Government.
Project Description	An integrated municipal solid waste processing facility designed to receive and process 96,000–150,000 metric tonnes of waste annually from Kano's daily generation of 3,000-plus tonnes. The facility will generate biogas and electricity for the national grid, produce organic fertiliser for Kano's irrigation schemes, recover recycled PET and metals for the local textile industry, and generate potential carbon-related revenues, subject to eligibility confirmation and applicable verification standards. The project is expected to support the formalisation of informal waste collection supply chains, subject to implementation design. The project is structured as a 20–25 year DBFO concession.
Indicative Investment Value	USD 35–50 million (estimated CapEx). Indicative base case IRR: 19.45%. Indicative NPV: ₦15.58 billion. Indicative payback period: 5.1 years (target). These are feasibility model projections, to be tested during investor due diligence.
Indicative Structure	DBFO Concession, 20–25 years.
Revenue Model / Commercial Logic	Tipping fees (approximately 40% of revenue mix); energy sales (approximately 35%); potential carbon-related revenues (approximately 15% in the feasibility model, subject to eligibility confirmation and verification); fertiliser and recyclable sales (approximately 10%). Potential minimum waste volume support from Kano State Government is described in the source materials, subject to agreement in the relevant project documents.
Current Status	Advancing to Outline Business Case (OBC) stage. Financial model and feasibility study in preparation in accordance with ICRC guidelines.

Target Investors	Infrastructure and climate-focused equity investors; DFIs (including AfDB, IsDB, GCF); commercial debt providers; waste management operators with DBFO experience.
Investor Engagement Focus	Concession structure and risk allocation; Potential waste volume support arrangements, where applicable; energy offtake arrangements; carbon credit monetisation approach; OBC progress; formal bid process timeline.
Contact / Engagement Route	Muhammad Nazir Halliru, DG/CEO, KanInvest, Plot 442 Rabi'u Musa Kwankwaso Road, Sheikh Nasiru Kabara Housing Estate, Kano State, Nigeria. Investor inquiries to be directed through KanInvest. Summit coordination through the Lagos Invest 3.0 organising interface where required.

Modern Halal Abattoir

Sector	Agro-Processing & Export — Halal-Certified Livestock Processing
Location	Kano State
Sponsor / Lead Interface	Kano Investment Promotion Agency (KanInvest) on behalf of Kano State Government.
Project Description	A centralised, Halal-certified, ISO-compliant abattoir designed to formalise the processing of Kano's livestock throughput, which is presented as exceeding one million cattle and three million small ruminants annually, through West Africa's largest livestock market. The facility is designed to address the full value chain: cold chain and refrigerated logistics, by-product commercialisation (hides, skins, blood meal, bone meal and organic fertiliser), NAFDAC and international food safety compliance, and access to AfCFTA halal export markets. Organic waste outputs from the abattoir are expected to feed into the Jari Bola facility's composting operations.
Indicative Investment Value	USD 13–19 million (estimated CapEx). Indicative projected revenue: ₦4.8–8.0 billion per annum (medium scale).
Indicative Structure	Independent Operator or Build-Operate-Transfer (BOT). Private equity 70–80% for management control under the BOT model, where agreed in the relevant project documents. State support expected to include land provision, regulatory approvals and offtake facilitation.
Revenue Model / Commercial Logic	Slaughter fees; cold storage; meat sales; by-product revenues (hides, blood meal, bone meal, organic fertiliser).
Current Status	Advancing to Outline Business Case (OBC) stage. Structure to be finalised through project preparation.

Target Investors	Agri-processing and food sector operators; AfCFTA-focused investors; impact and climate investors with food systems mandates; equity investors seeking BOT opportunities.
Investor Engagement Focus	BOT or Independent Operator structure; land provision; offtake arrangements; NAFDAC and Halal certification pathway; cold chain and logistics investment requirements; OBC progress.
Contact / Engagement Route	Muhammad Nazir Halliru, DG/CEO, KanInvest, Plot 442 Rabi'u Musa Kwankwaso Road, Sheikh Nasiru Kabara Housing Estate, Kano State, Nigeria. Investor inquiries to be directed through KanInvest. Summit coordination through the Lagos Invest 3.0 organising interface where required.

1.2 Private Sector-led Featured Deal

Traxport Lagos–Kano Low-Carbon Rail Freight Corridor	
Sector	Transport & Infrastructure — Rail Freight & Energy Logistics
Location	Lagos–Kaduna–Kano corridor (Lagos NRC Freight Yard, Ebute Metta; ICNL Kaduna; ICNL Kano)
Project Owner / Promoter	Traxport Rail Services Limited. Chairman: Chukwuemeka (Emeka) Ndu.
Project Partners	Vecturis (technical operator); CRRC Ziyang (rolling stock); Anglo Belgian Corporation / ABC (dual-fuel engines); JJAP (LNG / cryogenic); First Metro Infrastructure (maintenance); ICNL (terminals); NRC (rail access); InfraCredit (credit enhancement); BOI and Cordros (financial advisers); Asiko Energy and CET Gas (LNG supply).
Project Description	A brownfield rail freight and energy logistics platform on the existing NRC Lagos–Kano narrow-gauge corridor. The project deploys 10 dual-fuel LNG/diesel locomotives, approximately 160 freight wagons, LNG ISO tanks and cryogenic systems forming a Virtual Gas Pipeline (VGP) to move LNG by rail to Northern Nigeria, inland terminals at Kaduna and Kano, and digital cargo-visibility and MRV systems.
Project Value	Approximately USD 67.85 million (c. ₦108.6–111.3 billion). Based on the KPMG feasibility study financial model.
Amount Already Invested	Sponsor equity exceeding ₦1.5 billion (c. USD 0.9–1.0 million) committed to development, feasibility, OEM engagement, ESIA, and structuring.
Financing Need	External capital requirement: approximately USD 66–67 million. Equity ticket sought: USD 10–30 million.

Type of Investment	Hybrid: Sponsor / Strategic Equity (25–30%); Senior Debt, local currency / institutional (50–60%); DFI / Climate-Aligned Capital (10–15%).
Revenue Model	Freight tariffs (per wagon / tonne-km); LNG Virtual Gas Pipeline service fees; terminal handling charges at Kaduna and Kano; digital cargo-visibility service fees.
Investor Role	Equity investor (USD 10–30 million); DFI debt provider; local-currency institutional debt provider; climate / blended finance provider.
Contact / Engagement Route	Chukwuemeka (Emeka) Ndu, Chairman, Traxport Rail Services Ltd. Email: emeka.ndu@traxportrailng.com Tel: +234 803 403 0466

Section 2: Emerging Opportunities

2

This section presents the Emerging Opportunities. These are projects and investment platforms that are still developing. Each profile outlines the opportunity, the current project position, the development pathway and the engagement route. Investors are encouraged to contact the relevant sponsor or investment agency directly.

2.1 State Government-led Emerging Opportunities

Imo State Government

Imo State investment opportunities. For further information on any of the following, contact ISIPA: invest@imostate.gov.ng | +234 911 009 9900.

Orashi Special Energy Free Trade Zone (OSEFTZ)

Sector	Energy / Oil & Gas — Free Trade Zone & Industrialisation
Location	Oguta, Ohaji/Egbema, Owerri West & Ngor Okpala LGAs, Imo State
Sponsor / Lead Interface	Imo State Government / Orashi Project Company Limited. Regulated by the Oil & Gas Free Zones Authority (OGFZA).
Opportunity Description	A dedicated energy free trade zone positioned within Imo State's oil and gas region. Designed to anchor gas-based industries, petrochemicals, refining, LNG processing and export, methanol production, and heavy manufacturing. An OGFZA operating licence and an enabling Establishment Bill have been referenced in source materials. Potential free-zone incentives, including tax and import-duty benefits, are subject to applicable law and confirmation through the relevant free-zone authority.
Current Position	Zone concept, scope and incentive framework described in Imo State Investment Handbook. OGFZA operating licence and Establishment Bill referenced. Linkage to Egbema power station and Oguta Lake/Orashi waterway dredging described.
Development Focus	The investment requirement, transaction structure, investor entry route and supporting documentation will be developed through the ISIPA engagement process.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Adapalm Plantations Revitalization

Sector	Agriculture & Agribusiness — Palm Oil
Location	Ohaji-Egbema & Mbaise regions, Imo State. Mills at Ohaji and Umuogu. 4,310 hectares.
Sponsor / Lead Interface	Imo State Government (Adapalm Nigeria Limited, fully state-owned). Investment gateway: ISIPA.
Opportunity Description	Revitalization of a 4,310-hectare state-owned palm estate: replacement of old trees with high-yielding seedlings, expansion and modernisation of downstream processing (vegetable oil, soap, glycerine, palm kernel cake), smallholder outgrower schemes, and upgrade of mill machinery and logistics.
Current Position	State ownership confirmed. Plantation scale (4,310 ha) and current output stated. Brownfield revitalization status confirmed.
Development Focus	Investment requirement, transaction structure and investor role are under development and will be discussed during the sponsor engagement process.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Oguta Inland Port Development

Sector	Transport & Logistics — Inland Port
Location	Oguta, Imo State (River Niger system access)
Sponsor / Lead Interface	Imo State Government with National Inland Waterway Authority (NIWA) interface.
Opportunity Description	A proposed multimodal inland port providing water-transport access to the River Niger system and the Atlantic via Rivers State. Scope: container-handling facilities, warehousing, direct industrial connectivity, and logistics-cost reduction. Linked to OSEFTZ logistics and Oguta Lake/Orashi waterway dredging.
Current Position	Concept scope defined. Linkage to OSEFTZ and waterway dredging programme described.
Development Focus	Investment requirement, transaction structure, feasibility study and land status are to be developed. Investors should engage through NIWA and Imo State for further information on the development programme.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Hope Uzodimma Exclusive Estate, Avu

Sector	Real Estate & Housing
Location	Avu, along the Owerri–Port Harcourt corridor, Imo State
Sponsor / Lead Interface	Imo State Government. Investment gateway: ISIPA.
Opportunity Description	A government-led residential estate offering a range of housing typologies, from affordable units to luxury residences, with controlled access, utilities (power, water, drainage, digital connectivity), and landscaped recreational spaces.
Current Position	Development concept described. Location along Owerri–Port Harcourt corridor confirmed.
Development Focus	Project scope, investment requirement and investor engagement route are to be developed through the ISIPA engagement process.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Imo Medical City

Sector	Healthcare — Medical Complex Expansion
Location	Egbu, Owerri, Imo State
Sponsor / Lead Interface	Imo State Government. Operating facility: Medical City Hospital Owerri.
Opportunity Description	Expansion of an existing 40-bed operational medical complex into a full regional healthcare hub. Planned centres of excellence include a Comprehensive Cancer Center, Neurosciences Institute, Orthopedic & Trauma Center, Women's & Children's Hospital, and Medical Education Campus.
Current Position	Existing 40-bed operational facility confirmed. Centres of excellence expansion plan described.
Development Focus	The expansion investment requirement, transaction structure and investor role will be developed through the ISIPA engagement process.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Heartland River Park Estate (Urban Renewal PPP)

Sector	Real Estate & Commerce — Mixed-Use Urban Development
Location	Owerri (between Otamiri and Nworie Rivers), Imo State. 157 hectares.

Sponsor / Lead Interface	Heartland River Park Limited (PPP SPV: CODUC Nigeria Ltd + Heartland Holdings Ltd + Imo State Government).
Opportunity Description	A 157-hectare mixed-use waterfront development: canalization infrastructure, Class-A commercial towers, high-end residential (apartments, penthouses, waterfront villas), integrated hospitality hubs, and retail/entertainment districts.
Current Position	PPP SPV structure identified. Site area (157 ha) confirmed. Named private partners (CODUC Nigeria, Heartland Holdings).
Development Focus	Investment requirement, investor entry structure and concession terms are under development. Investors should engage through ISIPA to discuss the development programme.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Heartland Hospital (PPP Model)

Sector	Healthcare — Tertiary Hospital (PPP)
Location	Imo State (serving the wider South-East region)
Sponsor / Lead Interface	Heartland Hospital Management Corporation (statutory body); JNC International Ltd; Sepat Medical Investment & Management Company.
Opportunity Description	A PPP to establish a tertiary healthcare facility offering advanced diagnostics, oncology, cardiology, neurology, and trauma care. Equipment from Canon Medical, Olympus, Medtronic, Abbott and Elekta. MoUs signed with JNC International and Sepat Medical. Integrated with the Imo State Health Insurance Scheme (IMSHIA).
Current Position	Statutory corporation constituted. MoUs signed with JNC International and Sepat Medical. Named medical equipment suppliers. IMSHIA integration described.
Development Focus	Investment requirement, site details and investor role will be developed through the ISIPA and Heartland Hospital Management Corporation engagement process.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Imo Digital City (IDCL)

Sector	Digital Infrastructure — Technology Park
Location	Owerri, Imo State

Sponsor / Lead Interface	Imo Digital City Ltd (IDCL), privately-owned with Imo State Government equity. Partners: US Market Access Center, Cisco, Huawei, UC Berkeley.
Opportunity Description	Mixed-use technology park: smart infrastructure, Tier-3/Tier-4 data centres, FinTech hubs, BPO centres, startup incubators/accelerators, and conference/event spaces. US-MAC partnership confirmed (March 2025) for startup acceleration, US VC access, and market linkage. Over 40,000 individuals trained via SkillUpImo programme.
Current Position	State equity confirmed. 40,000+ trained via SkillUpImo. US-MAC partnership (March 2025) confirmed. Cisco and Huawei partnerships noted.
Development Focus	Expansion investment requirement and investor entry structure are to be discussed with the sponsor through ISIPA.
Engagement Route	Imo State Investment Promotion Agency (ISIPA). Email: invest@imostate.gov.ng Tel: +234 911 009 9900

Solar Mini-Grids for Rural Communities — RESCO Model

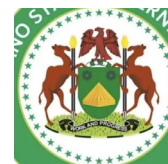

Sector	Renewable Energy / Rural Electrification
Location	20 rural communities across Shiroro, Rafi, Munya, and Lavun LGAs, Niger State
Sponsor / Lead Interface	Niger State Government — Ministry of Industry, Trade & Investment (facilitation only; no subsidy). RESCO developer to be identified.
Opportunity Description	Development, ownership, and operation of 20 isolated solar mini-grids (50–100 kW each; total 1–2 MW) across rural communities in four Niger State LGAs. RESCO model: developer owns and operates assets, recovering investment through pay-as-you-go metering revenue. No State subsidy required or provided. Community demand surveys completed and electricity demand confirmed at all 20 sites. Total capex: USD 8 million.
Current Position	Community demand surveys completed at all 20 sites. Pay-as-you-go revenue model defined. No-subsidy structure confirmed.
Development Focus	Full feasibility work, regulatory approval status, tariff structure and site-level data to be developed through the sponsor engagement process.

Engagement Route	Alhaji Aminu Suleiman Takuma, Honourable Commissioner of Industry, Trade & Investment, Niger State. Email: hc.investment@nigerstate.gov.ng Tel: +234 809 300 0064
-------------------------	---

Kano State Government — KanInvest

The Kano BRT & Bus Terminal project is presented as an Emerging Opportunity because capital requirements are to be determined at OBC stage. Investor inquiries should be directed through KanInvest or the Lagos Invest 3.0 organising interface, pending confirmation of approved investor-facing contact details.

Kano Bus Terminal & BRT System — Emerging Opportunity Under Structuring	
Sector	Urban Mobility — Bus Rapid Transit & Terminal Infrastructure
Location	Kano State (5 priority terminal locations across the urban core)
Sponsor / Lead Interface	Kano Investment Promotion Agency (KanInvest) on behalf of Kano State Government.
Opportunity Description	A phased Bus Rapid Transit system targeting 200,000 daily passengers across five integrated priority terminals by full system scale in 2032. Phase 1 (2027) covers construction of five terminals and procurement of an initial fleet of 250-plus high-capacity buses with Intelligent Transport Systems. Phase 2 (2029–2030) establishes dedicated BRT right-of-way lanes with route network coverage of 80% of the urban core. Phase 3 (2032) delivers full fleet modernisation and electrification with rail integration interface points. The system is designed to integrate with Kano's long-term metropolitan rail vision. Revenue model expected to include tariff collection, advertising and terminal retail leasing, supported by State-backed minimum ridership arrangements, where agreed in the relevant project documents.
Indicative Scale	Capital requirements to be determined at Outline Business Case (OBC) stage, covering terminals, fleet and Intelligent Transport Systems.
Current Position	Moving to Outline Business Case (OBC) stage. DBFOM structure defined. Government support framework under development.
Investment Relevance	Captive demand from a population of 4.8 million urban residents. DBFOM structure gives the private operator full operational control. Emissions reductions from modal shift are expected to qualify for climate finance, subject to eligibility checks. Phase 1 investment is

	presented as positioning the operator to anchor the longer-term metropolitan rail network.
Development Focus	OBC completion; capital requirements; ridership guarantee structure; BRT lane enforcement arrangements; climate finance eligibility; formal bid process design.
Engagement Route	Muhammad Nazir Halliru, DG/CEO, Kano Investment Promotion Agency (KanInvest), Plot 442 Rabi'u Musa Kwankwaso Road, Sheikh Nasiru Kabara Housing Estate, Kano State. Investor inquiries through KanInvest. Summit coordination through the Commonwealth Enterprise and Investment Council (CWEIC).

Enugu State Government - Enugu State Investment Development Authority

The following opportunities from Enugu State are presented as Emerging Opportunities. Investment requirements, transaction structures and sponsor engagement routes are under development. Investor engagement for Enugu State opportunities should proceed through the Enugu State Investment Development Authority, with approved investor-facing contact details to be provided through the Lagos Invest 3.0 organising interface.

Agriculture and Agro-Processing

Adani Staple Crop Processing Zone	
Sector	Agriculture & Agro-Processing — Rice and Ethanol
Location	Adani, Enugu State (5,000-hectare estate with 15 km diversion dam irrigation)
Sponsor / Lead Interface	Enugu State Government (Ada Rice Company Limited). Interface: Enugu State Investment Development Authority.
Opportunity Description	Ada Rice Company Limited is a 5,000-hectare rice estate in Adani. The Government of Enugu State seeks investors to revive the Adani rice estate to include a rice mill and ethanol processing plant. The brochure references Nigeria's rice market as valued at approximately USD 3.85 billion (2023) and growing. The Adani estate has an existing 15 km diversion dam irrigation system.
Current Position	Estate scale and irrigation infrastructure described in Enugu source materials. Government seeking investors for rice mill and ethanol processing additions.

Development Focus	Investment requirement, transaction structure, investor role and project scope to be developed through the Enugu State Investment Development Authority engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Premier Cashew Industries Limited

Sector	Agriculture / Export — Cashew Plantation and Processing
Location	Akama Oghe, Enugu State (580 hectares under cultivation with 44,586 cashew trees)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	Premier Cashew Industries was established in 1952 and is presented as one of Nigeria's leading cashew producers and exporters. The estate has 580 hectares under cultivation with an existing processing plant of 1,500 metric tonnes annual capacity installed in 1989. The Government seeks investors in the cashew plantation and will provide new hectareage and specially designed infrastructure to support investments.
Current Position	Plantation scale and processing capacity described. Government seeking investors with commitment to provide enabling infrastructure.
Development Focus	Investment requirement, investor role, transaction structure and expansion scope to be refined through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

United Palm Products Limited

Sector	Agriculture / Oil Palm — Plantation Revival and Downstream Processing
Location	Enugu State (approximately 7,000-hectare oil palm estate; processing facility in Nachi, Enugu)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	United Palm Products Limited (UPPL) has three palm plantations in Enugu measuring approximately 7,000 hectares, with only 43% under active cultivation. The Government of Enugu State intends to partner with private sector investors interested in reviving the assets

	and will aggregate oil palm plantations (working with other State governments) into a pool to facilitate transactions for interested investors.
Current Position	Plantation scale described. Government partnership approach described. Aggregation model with other State governments referenced.
Development Focus	Investment requirement, investor structure and transaction terms to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Sunrise Flour Mills Limited

Sector	Agriculture & Agro-Processing — Flour Milling
Location	Emene, Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	The Sunrise Flour Mill was established by Enugu State in 1983 at Emene and originally had three production lines for flour, semolina and wheat. The Government seeks investors in the mill, and notes opportunities in organic wheat production for specialty wholesale purchasers. The land and mill are described as capable of being repurposed for other products if required.
Current Position	Mill described in Enugu source materials. Investor engagement is being sought by the Government.
Development Focus	Transaction structure, capex requirement and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Akanu Ibiam Export SAPZ

Sector	Agribusiness / Export Processing — Special Agro Allied Processing Zone
Location	Enugu State (in the vicinity of Akanu Ibiam International Airport)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	A proposed agro-allied export processing zone to support the processing, packaging and warehousing of agricultural export cargo

	and to increase value-added output on agricultural products where Enugu has a comparative advantage.
Current Position	Concept described in Enugu brochure. Transaction structure and investment requirement are under development.
Development Focus	Investment structure, sponsor vehicle, project scope and investor role to be developed through project preparation.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Green Agro-Allied Industrial Zones

Sector	Agro-Processing — Integrated Agro-Industrial Zones
Location	Three locations across Enugu State (targeting value chains with comparative advantage)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	The proposed project will deliver the design, development, construction, operation and maintenance of three agro-processing zones targeting specific value chains across the State, including Cotton, Cashew, Oil Palm, Sorghum, Soybean, Ose Nsukka (Tiger Pepper) and Cassava.
Current Position	Concept and value chain targeting described in Enugu source materials. Investment structure under development.
Development Focus	Investment structure, site selection, capex and investor role to be refined through project preparation.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Beef Production and Processing

Sector	Agriculture / Livestock — Feedlot and Meat Processing
Location	Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	The proposed project involves the design, construction, operations and maintenance of a modern sustainable feedlot in the State, designed to serve as a catalyst for the State's livestock industry. The project is expected to deliver a greenfield meat processor to drive the industry in Nigeria's Southeast region. The rationale notes

	significant transport costs for livestock to the Southern region, which a local feedlot would address.
Current Position	Project concept described. Transaction structure and investment requirement to be developed.
Development Focus	Investment requirement, investor role and transaction structure to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Hospitality and Tourism

Hotel Presidential Enugu	
Sector	Hospitality & Tourism — Emerging Opportunity Under Structuring
Location	Enugu State (one hectare; adjacent to the International Conference Centre)
Opportunity Description	Renovation and repositioning of the Hotel Presidential, a landmark 100-room facility built in 1963, positioned next to the soon-to-be completed International Conference Centre. The Government of Enugu State intends to renovate the property and reposition it as a three- or four-star hotel to be managed under an international hospitality brand. An international hospitality consulting firm is expected to be engaged to define the repositioning approach. The Government seeks to engage interested investors at this early stage.
Current Position	Concept and early engagement stage. Hospitality consulting appointment expected to follow. Investment value, PPP structure and investor role are under development.
Development Focus	Hospitality consulting study outcomes; PPP or concession structure; investment value; investor role; international brand management arrangement.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Nike Lake Resort Enugu	
Sector	Hospitality & Tourism — 3- to 4-Star Resort
Location	Abakpa, Enugu State (on the banks of Nike Lake)

Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	Nike Lake Resort is a key hospitality facility in Enugu State built in 1988. The resort has 210 rooms in a large tree-lined estate, with 10 additional self-catering villas and several recreational facilities. The Government is about to engage an international hospitality consulting firm to define the repositioning approach and will partner with interested investors to engage an international hospitality brand to manage the resort.
Current Position	Existing operational resort. Government seeking investors at early stage, with hospitality consulting appointment expected to follow.
Development Focus	Hospitality consulting study outcomes; investor role; PPP or concession structure; brand management arrangement.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Ikenga Hotels Nsukka

Sector	Hospitality — 3-Star Hotel
Location	Nsukka, Enugu State (approximately 15 minutes from the University of Nigeria Nsukka)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	The Government of Enugu built and recently renovated and upgraded the Ikenga Hotel in Nsukka. The hotel has a range of facilities including a pool, tennis court, and fitness centre with king-size beds throughout. The hotel's proximity to the University of Nigeria Nsukka is described as a primary demand driver, alongside business and leisure travel to the Nsukka region.
Current Position	Existing upgraded facility. Investor engagement route to be defined.
Development Focus	Investment structure, investor role and concession or management arrangement to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

International Conference Centre

Sector	Hospitality & Events — Conference Infrastructure
Location	Enugu State

Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	Development of an international conference centre to complement the broader hospitality and tourism portfolio in Enugu State, including the Hotel Presidential repositioning and Michael Okpara Square.
Current Position	Project described in Enugu brochure. Investment structure and scope under development. Required capital recently appropriated by the government.
Development Focus	Investor role, project structure, scope and investment requirement to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Milikien Conservation Centre

Sector	Tourism & Conservation
Location	Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	A proposed conservation and eco-tourism centre to support Enugu State's tourism development objectives. Project scope and investor proposition under development.
Current Position	Concept described in Enugu brochure. Investment structure to be developed.
Development Focus	Project scope, investment structure and investor role to be defined through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Tourism Development Project

Sector	Tourism
Location	Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.

Opportunity Description	An encompassing tourism development initiative in Enugu State aimed at positioning the State as a regional tourism destination, complementing existing hospitality assets and natural attractions.
Current Position	Concept outlined in Enugu brochure. Specific projects and investment requirements under development.
Development Focus	Project scope, specific investment opportunities and investor roles to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Healthcare

Rangers Specialist Hospital	
Sector	Healthcare — Specialist Hospital Completion
Location	Rangers Avenue, Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	Completion and operationalisation of the Rangers Avenue Specialist Hospital. The project is expected to deliver a new emergency department; new specialised inpatient units for cardiac, geriatric, paediatric and maternal care; a psychiatric emergency care centre; and expanded medical imaging to support clinical services.
Current Position	Project under development. Completion scope described in Enugu source materials.
Development Focus	Completion investment requirement, financing structure and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Primary Healthcare Centres	
Sector	Healthcare — Primary Health Rehabilitation
Location	Enugu State (17 local government areas)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.

Opportunity Description	The Primary Healthcare Redevelopment Project aims to rehabilitate, increase capacity and structurally reinforce primary healthcare facilities across all 17 LGAs in Enugu State. The focus is on improving health outcomes in rural communities and protecting historically marginalised communities against the impacts of health emergencies.
Current Position	Programme scope described. Investment and financing structure to be developed.
Development Focus	Programme investment requirement, public-private structure and investor role to be defined through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Transportation and Logistics

Akanu Ibiam Airport Expansion

Sector	Transport / Aviation — International Passenger and Cargo Terminals
Location	Enugu State (Akanu Ibiam International Airport, the only international airport in Nigeria's Southeast region)
Opportunity Description	The proposed project is expected to deliver the completion of the new international passenger terminal, construction of a new cargo terminal, full runway construction and modernisation, and upgrade of existing airport infrastructure and cargo warehousing.
Current Position	Project described in source materials. Investment structure under development.
Development Focus	Investment structure, concession or PPP terms, investor role and financing requirement to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Akanu Ibiam Airport MRO Hub

Sector	Transport / Aviation — Maintenance, Repairs and Overhaul Facility
Location	Enugu State (Akanu Ibiam International Airport)

Opportunity Description	A Maintenance, Repairs and Overhaul hub and aviation-related facilities to provide low-cost, high-quality services to aircraft and parts manufacturers as well as airlines.
Current Position	Concept described in source materials.
Development Focus	Investor structure, project scope, operational model and financing to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Enugu Inland Waterway Project (Ogurugu Port)

Sector	Transport & Ports — Inland Waterway Channel and Port Development
Location	Ogurugu, Enugu State (on the River Niger system)
Opportunity Description	An inland waterway channel for cargo movement. The proposed port could serve as a transshipment terminal for the Lagos and Onne ports, and support shipments to Onitsha, Lokoja and Baro. Includes a jetty approach, dredging, navigational aids, main terminal buildings (documentation centres and laboratories), a cargo village, and associated storage and distribution facilities.
Current Position	Project scope described in source materials.
Development Focus	Investment structure, NIWA interface, financing requirement and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Opi-Ete Trunk B Road

Sector	Transport / Roads — 41.5 km Economic Corridor Highway
Location	Opi-Ete corridor, Enugu State (connecting Nigeria's North-central and North-west regions to the South)
Opportunity Description	Full construction of the 41.5 km Opi-Ete Trunk B highway, a major economic corridor. The rehabilitation will reduce travel time to the North through the A2 by at least 90 minutes and improve the efficiency of the logistic chain along the corridor.
Current Position	Project scope described.
Development Focus	Investment structure, procurement route, revenue model and investor role to be developed through the engagement process.

Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.
-------------------------	---

Inland Port Opi-Ete

Sector	Transport & Logistics — Multifunctional Inland Port
Location	Ette, Enugu State (border town between Enugu and Kogi State)
Opportunity Description	Construction of a new multifunctional logistics service complex and inland container terminal in Ette. The complex will execute customs control and formalities to support cargo to Ogurugu Port, Akanu Ibiam International Airport and Onne Port. Demand expected from passenger and cargo inflows as a gateway to and from North-central and North-west regions.
Current Position	Project scope described.
Development Focus	Investment structure, customs authority arrangements, financing requirement and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Modern Logistics Centres

Sector	Transport & Logistics — Specialised Logistics Hub Development
Location	Obollo-Afor and Ninth-Mile Corner, Enugu State (along the Trunk A Enugu-Maiduguri Expressway)
Opportunity Description	Design, development, construction, operation and maintenance of two multifunctional logistics and transit zones along the Trunk A Enugu-Maiduguri Expressway, the primary economic corridor connecting the North to the South-East and South-South regions. Each hub will include transit parks, inland container terminals, fuel and fire stations, accommodation, healthcare and sanitation facilities.
Current Position	Project scope and locations described.
Development Focus	Investment structure, concession model, financing requirement and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Enugu State Great Ring Road

Sector	Transport / Roads — Ring Road Economic Growth Corridor
Location	Enugu State (connecting across at least 12 local government areas)
Opportunity Description	A ring road connecting major economic corridors in the State including the mineral resource corridor, agro-industrial business corridor and ICT and automotive corridor. The road will reduce congestion in main state arteries and create economic linkages across at least 12 local government areas.
Current Position	Project scope described.
Development Focus	Investment structure, procurement route and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Enugu State Light Rail

Sector	Transport / Rail — Electric-Powered Light Rail System
Location	Enugu State (connecting key resource centres and economic corridors)
Opportunity Description	Design, construction, maintenance and operation of an electric-powered light rail system, primarily freight driven, connecting key resource centres and economic corridors. Through interchanges with existing air, rail, bus and port terminals, the light rail is expected to integrate with the wider state, regional and national transportation network.
Current Position	Project concept described.
Development Focus	Investment structure, rolling stock requirements, financing and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Enugu State Bus Rapid Transit

Sector	Urban Mobility — CNG/Electric Bus Rapid Transit System
Location	Enugu metropolis and local government areas, Enugu State
Opportunity Description	An efficient bus rapid transit system in the Enugu metropolis with an intra-state service delivering high-frequency public transportation. The project is expected to utilise CNG/Electric buses and will serve as

	a demonstration project for climate-smart investment partnerships in the transportation sector.
Current Position	Project concept described.
Development Focus	Investment structure, fleet procurement, financing and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Energy and Minerals

Mineral and Mining Industrial Zone

Sector	Solid Minerals — Integrated Mining and Processing Hub
Location	Enugu State (licensed areas within the State)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	Construction, operation and maintenance of industrial hubs targeting the exploration, development and value addition of mineral deposits in licensed areas within Enugu State. Enugu State's mineral base is described as large and undeveloped, with assets across gas, coal, iron ore, limestone, kaolin and smectite. The proposed plants will produce steel, clinker, cement, lime, marble and kaolin.
Current Position	Concept and mineral base described. Investment structure and project scope under development.
Development Focus	Investment structure, licensing status, feasibility and investor entry route to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Gas Industrial Park

Sector	Energy / Gas — Industrial Gas Park
Location	Enugu State (along the mineral resource economic corridor)
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.

Opportunity Description	Design, development, construction, operation and maintenance of a natural gas industrial park along the mineral resource economic corridor. The park is expected to catalyse gas and mineral extraction, transportation, processing and ancillary economic activities. It is expected to include gas and mineral exploration and development infrastructure, engineering, carbon capture, utilisation and storage (CCUS) facilities, and renewable energy facilities.
Current Position	Concept described. Investment structure and scope under development.
Development Focus	Investor structure, gas access arrangements, project scope and financing to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

350MW Gas to Power Plant

Sector	Power Generation — Gas-Fired Power Station
Location	Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	Design, construction, operation and maintenance of a new 350MW natural gas-fired power station and associated facilities. The project is described as a priority project to meet Enugu State's baseload requirement and ensure the sustainability of its energy sector.
Current Position	Project concept described. Gas supply, financing structure and investor role under development.
Development Focus	Gas supply arrangements, PPP structure, financing requirement and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

150MW Gas to Power Plant

Sector	Power Generation — Gas-Fired Power Station
Location	Enugu State
Opportunity Description	Design, construction, operation and maintenance of a new 150MW natural gas-fired power station and associated facilities. A priority project to meet Enugu State's baseload requirement. The State is currently allocated approximately 70MW daily from the national

	grid. Note: the heading in the source brochure reads “500MW Gas to Power Plant” but the body text states 150MW; the body text figure is used here.
Current Position	Project concept described. Gas supply and financing structure under development.
Development Focus	Gas supply arrangements, PPP structure, financing requirement and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Green Power Park Development I — 50MW Solar PV Project

Sector	Renewable Energy — Solar Photovoltaic Power Plant and Storage
Location	Enugu State (approximately 100 hectares; in the vicinity of existing transmission lines)
Opportunity Description	A 50MW photovoltaic plant and storage facilities on approximately 100 hectares, including substations, to energise homes, markets, schools, healthcare centres and key public institutions. The State intends to increase the share of renewables in its overall energy mix.
Current Position	Project concept described.
Development Focus	Investment structure, land acquisition, grid connection and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Green Power Park Development II

Sector	Renewable Energy
Location	Enugu State
Opportunity Description	A second phase of the Green Power Park programme to further increase renewable generation capacity in Enugu State. Project specifications to be determined through project preparation.
Current Position	Listed as a distinct opportunity in the Enugu investment brochure. Project specifications under development.
Development Focus	Project scope, generation technology, investment structure and investor role to be defined through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Green Manufacturing Centre

Sector	Energy / Manufacturing — Renewable Energy Equipment Special Economic Zone
Location	Enugu State
Opportunity Description	Design, construction, operation and maintenance of a Special Economic Zone (SEZ) dedicated to manufacturing equipment, services, facility management and engineering for natural gas and renewable energy technologies. The hub is expected to catalyse development of cutting-edge technologies to enable low-cost manufacturing in the energy sector.
Current Position	Concept described.
Development Focus	SEZ framework, investor structure, capex and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Rural Electrification — 90MW Solar PV Programme

Sector	Renewable Energy — Solar PV Rural Electrification
Location	Unserved and underserved rural communities across Enugu State
Opportunity Description	Promotion of rural electrification through isolated solar photovoltaic green mini-grid systems, installing up to 5 megawatts across identified communities. Presented as a low-carbon and resilient solution to increase the share of renewable energy in the State's overall energy mix.
Current Position	Project concept described.
Development Focus	RESCO or PPP structure, REA interface, tariff framework and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Clean Coal Power Project

Sector	Energy / Coal — Clean Coal Beneficiation Pilot Plant
Location	Enugu State

Opportunity Description	A clean coal beneficiation pilot plant to ensure the State can maximise the coal value chain and improve coal feedstocks for power and steel production in a sustainable manner. Enugu State has one of Nigeria's largest proven coal reserves.
Current Position	Concept described. Investment structure and technical approach under development.
Development Focus	Technical approach, investment structure and investor role to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

Information and Communication Technology

Data Centre Campus	
Sector	Digital Infrastructure — Tier IV Hyperscale Data Centre
Location	Enugu State
Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	The proposed project is expected to deliver a Tier IV Hyperscale Data Centre in line with the State government's objective to position Enugu as the number one cloud computing market in Africa. The project features a 50-acre campus, 80MW of critical IT load, three planned two-story data centres, 650,000 square feet of white space, 300W per square foot average density, Class A building amenities, and an on-site 100MW solar farm.
Current Position	Project described in Enugu source materials. Investment structure and investor entry route under development.
Development Focus	Investment structure, financing requirement, investor role and land status to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

New Enugu Smart City Project	
Sector	Urban Development / Digital Infrastructure — Smart City
Location	Enugu State

Sponsor / Lead Interface	Enugu State Government. Interface: Enugu State Investment Development Authority.
Opportunity Description	The proposed project will deliver a new mixed-use smart and eco-friendly city envisioned to include residential areas, a major business district for major banks, autonomous public institutions, multinational companies and their related back offices, and service firms. Expected project components include green homes, an international financial centre, an international shopping complex and a sport and recreational complex.
Current Position	Project concept described. Scale, phasing and investment structure under development.
Development Focus	Investor structure, master developer procurement, project scope and financing to be developed through the engagement process.
Engagement Route	Engagement route to be provided through the Enugu State Investment Development Authority.

2.2 Federal / State-linked Emerging Opportunities

The following opportunities involve federally-owned infrastructure, public-private partnerships or private operators with state agreements. Each is presented at Emerging Opportunity level. Investment requirements, transaction structures and engagement routes are being developed and will be made available through the relevant sponsor or project interface.

Orashi Electricity Company Ltd (Orashi ECL) — 500MW Gas Plant & 27-LGA Electrification

Sector	Power & Energy — Generation, Transmission & Distribution
Location	Imo State (generation plant); distribution across 27 LGAs
Sponsor / Lead Interface	Orashi Electricity Company Ltd (private). Landmark electrification agreement with Imo State Government. HQ: 123 Okigwe Road, Owerri.
Opportunity Description	A privately-owned integrated power company with a landmark agreement with Imo State Government to electrify all 27 LGAs. Generation portfolio: 500MW gas-fired plant (Imo State), 200MW solar, 100MW hydro, 50MW wind. Currently serves 50,000+ homes, 2,000 SMEs and 10 large industrial complexes.
Current Position	Landmark state electrification agreement confirmed. Generation portfolio described. Existing customer base stated.
Development Focus	Investment requirement for the 27-LGA electrification programme, financing structure and investor role are to be discussed with the sponsor.
Engagement Route	Engagement route will be provided through the relevant sponsor. Company HQ: 123 Okigwe Road, Owerri, Imo State.

Egbema Power Station (NDPHC / NIPP)

Sector	Power & Energy — Thermal Generation
Location	Ohaji-Egbema LGA, Imo State
Sponsor / Lead Interface	Egbema Generation Company Limited (NDPHC subsidiary). Federal Government + 36 State Governments (NIPP). Imo State Government collaboration.
Opportunity Description	A major OCGT thermal power project under the National Integrated Power Project (NIPP). Installed capacity approximately 375–380 MW (ISO), using three GE Frame 9E gas turbines. Project reported to be at an advanced stage of completion.

Current Position	NDPHC ownership and NIPP framework confirmed. Advanced completion stage reported in source.
Development Focus	Completion financing requirement, investor opportunity and commissioning timeline are to be discussed with NDPHC directly.
Engagement Route	Engagement route to be provided through NDPHC.

ANOH Gas Processing Plant — Expansion Opportunities

Sector	Oil & Gas — Gas Processing / Expansion
Location	Ibigwe, Ohaji/Egbema LGA, Imo State
Sponsor / Lead Interface	ANOH Gas Processing Company Ltd (AGPC) — Seplat Energy / NNPC JV. NCDMB equity partner.
Opportunity Description	An operational gas processing facility producing approximately 300 million standard cubic feet of gas per day, supplying dry gas, condensate, and LPG for domestic use and export. Expansion potential: Mini-LNG, gas-to-liquids (GTL), CNG infrastructure, and industrial cluster development.
Current Position	Operational status confirmed. Approx. 300 MMscfd production capacity stated. JV structure (Seplat / NNPC / NCDMB) confirmed.
Development Focus	Expansion scope, financing requirement and investor role are to be discussed with AGPC / Seplat Energy directly.
Engagement Route	Engagement route to be provided through AGPC / Seplat Energy.

Waltersmith Modular Refinery — Expansion

Sector	Oil & Gas — Modular Refining
Location	Ibigwe, Ohaji/Egbema LGA, Imo State
Sponsor / Lead Interface	Waltersmith Petroman Oil Ltd. NCDMB equity partner.
Opportunity Description	An operational modular refinery (5,000 bpd daily capacity) producing PMS, AGO, DPK, and HFO. Operational since 2020 with NCDMB as equity partner. Expansion opportunities include Mini-LNG, gas-to-liquids, CNG infrastructure, and industrial cluster development.
Current Position	Operational status since 2020 confirmed. Production capacity (5,000 bpd) stated. NCDMB equity confirmed.

Development Focus	Expansion scope, financing requirement and investor role are to be discussed with Waltersmith Petroman Oil directly.
Engagement Route	Engagement route to be provided through Waltersmith Petroman Oil Ltd.

2.3 Private Sector Growth Capital Opportunities

The following seven growth capital opportunities are led by private sector companies operating across manufacturing, agribusiness, healthcare, clean energy and technology. They are presented through an institutional fund manager and investors should engage through that route in the first instance. Company-specific information will be shared by the fund manager subject to investor qualification. Fund Manager Contact. Aruwa Capital Management. Email: info@aruwacapital.com

Polysmart Packaging — Multi-line Food -Grade rPET Recycling Expansion

Sector	Manufacturing / Plastics Recycling (Circular Economy)
Location	Sango-Ota, Ogun State
Sponsor / Lead Interface	Polysmart Packaging Limited. Lead institutional investor: Aruwa Capital Management (Fund II).
Opportunity Description	Polysmart is one of Nigeria's leading integrated plastic recyclers, converting post-consumer PET waste into food-grade and non-food-grade resins and flexible packaging. Expanding from a single production line to a multi-line configuration. Nigeria's 2029 regulation mandating a minimum 25% recycled content in all PET bottles provides a structural demand driver. Aruwa Capital invested USD 5 million via convertible notes in December 2025. Capital sought: USD 20 million.
Current Position	Aruwa Capital investment confirmed (USD 5 million, December 2025). Brownfield / scaling stage. Regulatory tailwind (2029 recycled-content mandate).
Development Focus	Detailed financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

Yikodeen Footwear — Safety & Industrial Footwear Capacity Expansion

Sector	Manufacturing — Safety / Industrial Footwear (PPE)
Location	Lagos, Nigeria
Sponsor / Lead Interface	Yikodeen Company Limited. Lead institutional investor: Aruwa Capital Management (Fund II).
Opportunity Description	The only indigenous manufacturer certified by NCDMB to supply safety footwear to Nigeria's oil and gas sector. New 120,000 sq ft

	factory commissioned in 2025. Aruwa Capital invested USD 3 million via preferred equity in December 2024. Capital sought: USD 5–7.5 million.
Current Position	Aruwa Capital investment confirmed. New factory commissioned 2025. NCDMB certification confirmed. Brownfield / scaling stage.
Development Focus	Detailed financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

Wemy Industries — Adult & Baby Hygiene Products Capacity Expansion

Sector	Manufacturing — Personal Hygiene / FMCG
Location	Alapere-Ketu, Lagos, Nigeria
Sponsor / Lead Interface	Wemy Industries Limited (brands: Dr. Brown's, Nightingale). Lead investors: Aruwa Capital Management; co-investor: Alitheia Capital.
Opportunity Description	The only indigenous manufacturer certified by NCDMB to supply safety footwear to Nigeria's oil and gas sector. New 120,000 sq ft factory commissioned in 2025. Aruwa Capital invested USD 3 million via preferred equity in December 2024. Capital sought: USD 5–7.5 million
Current Position	Aruwa Capital and Alitheia Capital investments confirmed. 3.5x capacity increase from second line (April 2026). Brownfield / scaling stage.
Development Focus	Detailed financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

Koolboks — Solar Refrigeration Manufacturing & Market Expansion

Sector	Clean Energy / Solar-Enabled Refrigeration (Manufacturing)
Location	Lagos, Nigeria (assembly plant) and pan-African
Sponsor / Lead Interface	Koolboks Limited. Lead investors: Aruwa Capital Management and KawiSafi Ventures (Series A co-leads).
Opportunity Description	Koolboks manufactures eco-friendly solar-enabled refrigerators and freezers with ice-battery thermal storage and pay-as-you-go financing, targeting off-grid and largely women-led MSMEs. Aruwa

	Capital invested USD 2.5 million via preference shares in December 2021. Capital sought: USD 15 million.
Current Position	Lagos assembly plant operational. Deployed units across Nigeria, Kenya, Uganda, and other markets. Brownfield / scaling stage.
Development Focus	Detailed financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

Agroeknor — Hibiscus / Superfoods Export Value-Chain Scale-Up

Sector	Agribusiness / Agricultural Commodity Export (Superfoods)
Location	HQ: Lagos, Nigeria. Sourcing operations in Kano, Katsina, Jigawa, and Ekiti.
Sponsor / Lead Interface	Agroeknor International Limited. First institutional equity investor: Aruwa Capital Management.
Opportunity Description	Agroeknor sources, processes, and exports dried hibiscus flowers, hibiscus powder and concentrate, cashew, sesame, and ginger to food, beverage, and pharma clients in multiple international markets. Aruwa Capital's cumulative investment is USD 2.5 million across multiple instruments since 2021. Capital sought: USD 10 million.
Current Position	Aruwa Capital cumulative investment confirmed (USD 2.5 million). Multi-country export presence confirmed. Brownfield / scaling stage.
Development Focus	Detailed financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

Mdaas Global — Tech-Enabled Diagnostic Centre Network Expansion

Sector	Healthcare — Diagnostics (Health-tech)
Location	Multi-state Nigeria (HQ: Lagos). 23 centres across 12 Nigerian states and 1 centre in Cameroon.
Sponsor / Lead Interface	MDaaS Global Limited. Institutional investors: Aruwa Capital Management; Newtown Partners.
Opportunity Description	MDaaS builds and operates modern tech-enabled diagnostic centres (radiology, cardiac, laboratory) for underserved communities using its proprietary BeaconOS/BeaconHealth platform. The network has

	served over 500,000 patients. Aruwa Capital invested USD 1.5 million (convertible note, December 2023). Capital sought: USD 10 million.
Current Position	Aruwa Capital investment confirmed. 23 centres in 12 states + Cameroon. 500,000+ patients served. Brownfield / scaling stage.
Development Focus	Detailed operational and financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

OmniRetail — B2B FMCG E-Commerce & Embedded-Finance Expansion

Sector	Technology — B2B E-Commerce / Embedded Finance (FMCG)
Location	HQ: Lagos, Nigeria. Active in Nigeria, Ghana, and Côte d'Ivoire.
Sponsor / Lead Interface	OmniRetail (OmniRetail Technology / Omnibiz). Investors include Aruwa Capital Management, Norfund, Timon Capital, and Ventures Platform.
Opportunity Description	OmniRetail is an end-to-end B2B e-commerce and retail platform digitising the FMCG supply chain. Its four business units cover B2B e-commerce, Platform-as-a-Service, Payments, and Credit/embedded finance. The platform serves over 145,000 retailers. Aruwa Capital holds a position via a secondary share purchase (December 2022 and June 2023). Capital sought: USD 30 million.
Current Position	Aruwa Capital position confirmed (secondary purchase, 2022–2023). 145,000+ retailers served. Pan-West African operations (Nigeria, Ghana, Côte d'Ivoire). Brownfield / scaling stage.
Development Focus	Detailed financial information, investor instrument and terms will be provided by Aruwa Capital Management to qualifying investors.
Engagement Route	Aruwa Capital Management. Email: info@aruwacapital.com

2.4 Other Strategic Infrastructure Opportunities

The following six opportunities cover major infrastructure themes across oil and gas, ports, maritime logistics, waste-to-energy and industrial manufacturing. These opportunities are at varying stages of development and investors should engage directly with project sponsors.

UTM Offshore — Floating LNG (FLNG) Facility, Yoho Field	
Sector	Oil & Gas / Energy — FLNG
Location	Deepwater Yoho field, offshore Nigeria
Sponsor / Lead Interface	UTM Offshore Limited. Partners: JGC Corporation, Technip Energies NV, Kellogg Brown & Root.
Opportunity Description	Development of a floating liquefied natural gas (FLNG) facility in the deepwater Yoho field offshore Nigeria. Expected to produce 176 million cubic feet of gas per day. Project value: USD 1.5 billion.
Development Focus	Transaction structure, financing requirement, investor role and sponsor engagement route are to be developed. Investors should engage directly with the project sponsor.
Engagement Route	Engagement route will be provided through the relevant sponsor.

Akwa Ibom Deep Sea Port (Ibom Port)	
Sector	Ports & Logistics — Deep Sea / Transshipment Port
Location	Akwa Ibom State, Nigeria
Sponsor / Lead Interface	Akwa Ibom State Government. Partners: Nigerian Port Authority, Federal Ministry of Transport, Global Maritime & Port Services PTE Limited.
Opportunity Description	A deep sea port designed for very large vessels, capable of loading over 13,000 containers per voyage. Designed to serve as a transshipment port redistributing cargo from mega-vessels to smaller seaports and river ports. Project value: USD 4.2 billion.
Development Focus	Transaction structure, financing requirement, investor role and engagement route are to be developed.
Engagement Route	Investors should engage through the Akwa Ibom State Government or Nigerian Ports Authority.

NEXIM Bank / Regional Sealink Project

Sector	Transport & Logistics — Inland Waterways / Coastal Trade
Location	Nigeria and West Africa (lower Niger / Benue corridor and coastal trade routes)
Sponsor / Lead Interface	NEXIM Bank and Regional Sealink stakeholders.
Opportunity Description	A collaborative partnership framework promoted by NEXIM Bank to bridge maritime logistics infrastructure gaps by enhancing inland waterways operations, promoting coastal trade under AfCFTA, and developing the lower Niger/Benue as a green freight/economic corridor. Project value: USD 200 million.
Development Focus	Programme components, financing structure and investor role are to be developed.
Engagement Route	Engagement route will be provided through the relevant sponsor.

NNPC-Edo Condensate Refinery

Sector	Oil & Gas — Condensate Refining
Location	Edo State, Nigeria
Sponsor / Lead Interface	Nigerian National Petroleum Company (NNPC) in partnership with Edo State Government.
Opportunity Description	A 10,000 barrels-per-day facility designed to process light natural gas liquids into petrol and diesel. Project value: USD 345 million.
Development Focus	Transaction structure, financing requirement and investor role are to be developed.
Engagement Route	Engagement route will be provided through the relevant sponsor.

NASIDA Waste-to-Energy and Solar Hybrid Project (Nasarawa State)

Sector	Renewable Energy / Waste Management
Location	Nasarawa State, Nigeria
Sponsor / Lead Interface	Nasarawa Investment & Development Agency (NASIDA) in partnership with Infinitum Energy Group.
Opportunity Description	A waste-to-energy and solar hybrid project generating approximately 30 MW of electricity for Nasarawa State. Addresses

	municipal waste challenges and provides a sustainable energy source. Note: the project value figure requires confirmation with the sponsor.
Development Focus	The investment structure and scope will be developed through engagement with NASIDA.
Engagement Route	Engagement route will be provided through the relevant sponsor.

Madewell Products Limited — Cement Plant (Cross River State)

Sector	Manufacturing — Cement Production
Location	Cross River State, Nigeria
Sponsor / Lead Interface	Madewell Products Limited (MPL).
Opportunity Description	Development of a 10 million tonnes per annum cement plant (6,000 TPD clinker production; 4 lines of 2.5 million tonnes per year each). Project value: USD 650 million.
Development Focus	Transaction structure, financing requirement, investor role and land status are to be developed.
Engagement Route	Engagement route will be provided through the relevant sponsor.

Section 3: Portfolio Summary And Next Steps

The table below provides a summary of all opportunities in this Deal Book, the current stage of each project, and the principal next steps for investors and sponsors.

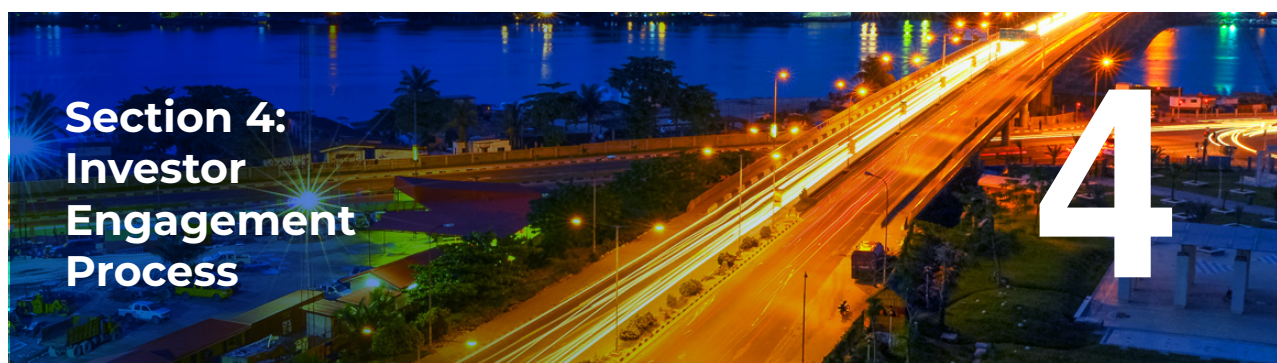

Project / Opportunity	Presentation Status	Principal Next Steps
Baro Port City	Featured Deal	NIWA permits; AD Ports MoU status; ECA mandates
Minna Solar IPP	Featured Deal	PPA offtaker identity; feasibility study; data room
Minna SAPZ	Featured Deal	Anchor investor identities; job creation data
Greater Suleja Development	Featured Deal	Independent feasibility study; NPA/dry port approvals
Lithium / Silicon Processing Plant	Featured Deal	JORC resource report; technology shortlist; offtake LOIs
Concorde Hotel – Hilton	Featured Deal	Investor role; equity/debt split; formal feasibility
Oguta Lake Eco-Tourism	Featured Deal	Feasibility study; land status; concession terms
Nworie Riverfront Development	Featured Deal	Feasibility study; PPP concession terms; revenue projections
Traxport Rail Freight Corridor	Featured Deal	ESIA approval; NRC land acquisition; freight LOIs to binding contracts
Jari Bola Waste-to-Wealth Facility (Kano)	Featured Deal	OBC completion; waste volume support arrangements; energy offtake; formal bid process timeline
Modern Halal Abattoir (Kano)	Featured Deal	OBC completion; BOT structure; land provision; NAFDAC certification pathway
Hotel Presidential Enugu	Emerging Opportunity	Hospitality consulting study; PPP structure; investor role; brand management arrangement

Sunrise Flour Mills (Enugu)	Emerging Opportunity	Transaction structure; capex; investor role
Akanu Ibiam Export SAPZ (Enugu)	Emerging Opportunity	Project scope; investor role; structure
Green Agro-Allied Industrial Zones (Enugu)	Emerging Opportunity	Site selection; capex; investor entry
Beef Production and Processing (Enugu)	Emerging Opportunity	Investment requirement; structure; investor role
Nike Lake Resort (Enugu)	Emerging Opportunity	Hospitality consulting study; PPP structure; brand arrangement
Ikenga Hotels Nsukka (Enugu)	Emerging Opportunity	Investor role; concession or management arrangement
International Conference Centre (Enugu)	Emerging Opportunity	Project scope; structure; investor role
Milikien Conservation Centre (Enugu)	Emerging Opportunity	Project scope; investment structure; investor role
Tourism Development Project (Enugu)	Emerging Opportunity	Specific opportunities; investment requirements; roles
Rangers Specialist Hospital (Enugu)	Emerging Opportunity	Completion investment; financing structure; investor role
Primary Healthcare Centres (Enugu)	Emerging Opportunity	Programme investment; PPP structure; investor role
Mineral and Mining Industrial Zone (Enugu)	Emerging Opportunity	Licensing status; feasibility; investor entry route
Gas Industrial Park (Enugu)	Emerging Opportunity	Gas access; project scope; financing structure
350MW Gas to Power Plant (Enugu)	Emerging Opportunity	Gas supply; PPP structure; investor role
Data Centre Campus (Enugu)	Emerging Opportunity	Investment structure; land status; investor role
New Enugu Smart City (Enugu)	Emerging Opportunity	Master developer procurement; project scope; financing
OSEFTZ	Emerging Opportunity	Project value; transaction structure; feasibility study
Adapalm Revitalization	Emerging Opportunity	Investment requirement; transaction structure
Oguta Inland Port	Emerging Opportunity	Feasibility; project scope; capex; structure
Hope Uzodimma Estate, Avu	Emerging Opportunity	Site area; land title; capex; developer route
Imo Medical City	Emerging Opportunity	Expansion capex; investment structure
Heartland River Park Estate	Emerging Opportunity	Total capex; investor entry; financing requirement

Heartland Hospital	Emerging Opportunity	Capex; site; investor role; feasibility
Imo Digital City (IDCL)	Emerging Opportunity	Expansion capex; investor entry structure
Solar Mini-Grids — RESCO Model	Emerging Opportunity	REA licence; community GPS; tariff structure
Aruwa Portfolio (7 companies)	Emerging Opportunity	Contact via Aruwa Capital Management
Other Strategic Infrastructure (6)	Emerging Opportunity	Transaction structure; investor role; contact details
Kano Bus Terminal & BRT System	Emerging Opportunity	OBC completion; capital requirements; ridership guarantee structure; formal bid process
Adani Staple Crop Processing Zone (Enugu)	Emerging Opportunity	Investment structure; project scope; investor role
Premier Cashew Industries (Enugu)	Emerging Opportunity	Investment structure; expansion scope; investor role
United Palm Products (Enugu)	Emerging Opportunity	Investment structure; plantation development programme

The following generic investor engagement process is provided for guidance. Not every project has a data room, feasibility study, or competitive procurement process. Investors should refer to the individual project profile for the appropriate engagement route for each opportunity.

Step 1 — Expression of Interest

Contact the named individual or organisation listed in the project profile with a brief investor profile, fund mandate, and indicative interest level. For State Government projects, initial contact should be made through the relevant investment promotion agency.

Step 2 — Initial Screening

Sponsors will review investor credentials, mandate fit, and financial capacity. A standard investor questionnaire may be requested at this stage.

Step 3 — Non-Disclosure Agreement and Information Access

Where available, detailed project information including feasibility studies, financial models, land documentation and draft agreements will be shared following execution of a non-disclosure agreement.

Step 4 — Sponsor Briefing

A formal briefing with the project sponsor or State Government representative may be arranged to present the project in detail and address investor questions.

Step 5 — Site Visit

Where applicable and at an appropriate stage, investors may request a site visit. This is particularly relevant for physical infrastructure projects.

Step 6 — Due Diligence

Investors and their advisers will undertake their own independent legal, financial, technical, tax, commercial and regulatory due diligence.

Step 7 — Commercial Negotiation or Procurement

Depending on the project structure, investors may enter direct bilateral negotiations or participate in a competitive procurement / concession process.

Step 8 — Transaction Documentation and Financial Close

Successful investors will proceed to formal transaction documentation, including term sheets, shareholders' agreements, concession agreements or PPP contracts, before financial close.

Appendix A: Glossary

Term	Definition
AfCFTA	African Continental Free Trade Area
AfDB	African Development Bank
AGPC	ANOH Gas Processing Company Limited
BOI	Bank of Industry (Nigeria)
BOO	Build-Own-Operate
BOT	Build-Operate-Transfer
BPO	Business Process Outsourcing
BESS	Battery Energy Storage System
BRT	Bus Rapid Transit
CCUS	Carbon Capture, Utilisation and Storage
CWEIC	Commonwealth Enterprise and Investment Council
DBFO	Design-Build-Finance-Operate
DBFOM	Design-Build-Finance-Operate-Maintain
DBFOT	Design-Build-Finance-Operate-Transfer
DFI	Development Finance Institution
ECA	Export Credit Agency
ESIA	Environmental and Social Impact Assessment
FLNG	Floating Liquefied Natural Gas
FMCG	Fast-Moving Consumer Goods
FTZ	Free Trade Zone
GCF	Green Climate Fund
ICRC	Infrastructure Concession Regulatory Commission
IDCL	Imo Digital City Limited
IMSHIA	Imo State Health Insurance Agency
InfraCredit	InfraCredit Plc — Nigerian infrastructure credit enhancement institution
IRR	Internal Rate of Return
IsDB	Islamic Development Bank
ISIPA	Imo State Investment Promotion Agency
ITS	Intelligent Transport System

JV	Joint Venture
KanInvest	Kano Investment Promotion Agency
LNG	Liquefied Natural Gas
MMscfd	Million Standard Cubic Feet per Day
MoU	Memorandum of Understanding
MRV	Monitoring, Reporting and Verification
NAFDAC	National Agency for Food and Drug Administration and Control
NCDMB	Nigerian Content Development and Monitoring Board
NDPHC	Niger Delta Power Holding Company
NEXIM	Nigerian Export-Import Bank
NIPC	Nigerian Investment Promotion Commission
NIPP	National Integrated Power Project
NIWA	National Inland Waterway Authority
NPA	Nigerian Ports Authority
NPV	Net Present Value
NRC	Nigerian Railway Corporation
NSIA	Nigeria Sovereign Investment Authority
OBC	Outline Business Case
OGFZA	Oil and Gas Free Zones Authority
OSEFTZ	Orashi Special Energy Free Trade Zone
PPA	Power Purchase Agreement
PPP	Public-Private Partnership
RESCO	Renewable Energy Service Company
rPET	Recycled Polyethylene Terephthalate
SAPZ	Special Agro-Processing Zone
SPV	Special Purpose Vehicle
tpa	Tonnes per annum
UPPL	United Palm Products Limited
VGP	Virtual Gas Pipeline — transport of LNG by rail or road
WACC	Weighted Average Cost of Capital

CONFIDENTIAL — For Investor Engagement Purposes Only
